

# Happy D.

Archetypical bathroom design in the shape of a "D":  
a complete range of products with great value—to make  
everyone happy.

D for design  
Sieger Design used one letter  
to create an entire collection:  
the Happy D. washbasin.

Why is **Happy D.** so successful? Perhaps because the range is reasonably priced in spite of its high design quality. Perhaps because Happy D. is such a versatile bathroom range. Perhaps because the D-shaped washbasin is unmistakable. Happy D. is to bathroom design what Bauhaus is to architecture: simple, elegant and timelessly modern — a veritable icon that has gained many friends and numerous design prizes since it was introduced.

Design by Sieger Design

The varied selection of products in the Happy D. range shows how an entire design universe can be created from a single letter: washbasins, console basins, handrinse basins, WCs and bidets in all sizes and variations, supported by an extensive furniture range. Despite its extensive options, the Happy D. range allows for simple planning. Its distinctive language also makes it possible not only to design for different room layouts but also for different furnishing styles.

Clear and uncluttered: the Happy D. bathroom is streamlined and sleek. This consistency in design is reflected in the bidet, WC and washbasin with design siphon and chrome towel rail underneath. The freestanding bathtub with acrylic panelling - also available with a whirlpool system - makes for a perfect centerpiece.

Part of the success of Happy D. can also be attributed to its extensive furniture range. The practical modular range and chic singular pieces are available in two designs. **(below)** The variable consoles provide a large design scope: with or without vanity unit, right or left, with washbasin or console basin. The vanity units are available in various widths, fitted precisely to the ceramic. **(right)** There are five finishes in real wood veneer, wood décor or white high gloss.

Like the vanity units, the Happy D. consoles offer plenty of storage space, as does the wall-mounted tall cabinet (176 x 50 x 36 cm), shown here in American Cherry real wood veneer. The Happy D. bathtub is a true eye-catcher (**right**). It can be adapted to any room layout thanks to its various applications: built-in, back-to-wall, corner, undermount, and freestanding. Shown here with elegant panelling – available in four wood finishes or sanitary acrylic.
